8.45 CGPA

Bachelor of Technology in Civil Engineering

IIIT - RGUKT, Nuzvid

Aug 2017 - Mar 2019

7.5 CGPA

Pre-University Course (MPC)

Z.P High School, Bhupathipalli

July 2016 - Mar 2017

10 CGPA

SSC Class 10

PROJECTS

Project Name: RiskDX

<https://getriskdx.com>

Role: Full Stack Developer

Project Description:

RiskDX is a digital insurance distribution and automated underwriting platform supporting quoting, applications, automated decision-making, and policy issuance for both direct and agent-assisted channels.

- Built and optimized Angular 8 and ASP.NET Core modules, improving performance and workflow efficiency.
 - Developed secure RESTful APIs and integrated them into UI components for dynamic data flow.
 - Implemented Azure Cognitive Services (Translation, Rewrite, Content Safety) to automate content processing.
 - Improved application responsiveness by refactoring components and optimizing query execution.
 - Responsible for deployment process, post-deployment validation, and Wiki documentation.
 - Implemented custom branding for multiple white-labeled agency applications.
 - Contributed to seamless multichannel policy issuance within RiskDX's ecosystem.

Project Name: CustomPlan Financial Advisors

<https://getcustomplanfinancial.com/>

Project Description:

CustomPlan Financial Advisors is a collaborative platform developed in partnership with RiskDX.

- Developed responsive UI screens using ASP.NET MVC and Bootstrap and Web APIs.
 - Implemented custom branding (colors, icons, images) across the platform.
 - Improved overall layout, navigation, and user experience.
 - Built reusable MVC Partial Views, enabling rapid customization for white-label variants such as CAA Life and Amore Insurance.

Project Name: Parisa Pajooh Financial

<https://parisafinancial.com/>

Project Description:

Fully hosted, branded financial advisor website offering seamless “Buy Now” insurance purchasing integrated with RiskDX underwriting flows.

- Led the team for both front-end & back-end implementation and guide the team mates.
 - Built responsive UI modules using React TypeScript and Tailwind CSS.
 - Improved client onboarding flow and overall customer journey through UI/UX enhancements.
 - Managed deployments, task allocation, code reviews, and coordination across developers.
 - Delivered multiple white-labeled versions including Blueprint and Smart Plan Financial.

Project Name: Smart Plan Financial

riskdxpremiumsmartplanfinancial

Project Description:

- Fully hosted and complete website for financial professionals. It includes personalized branding, integrated a seamless path to purchase insurance with RiskDX. Led the team for both front-end & back-end implementation.
 - Built responsive UI modules using React TypeScript and Tailwind CSS.
 - Improved client onboarding flow and overall customer journey through UI/UX enhancements.
 - Managed deployments, task allocation, code reviews, and coordination across developers.
 - Delivered multiple white-labeled versions including Blueprint and Smart Plan Financial.

Technologies used in My Projects:

Angular, React, Javascript, Typescript, ASP .Net Core Web API, EF Core, Ado .Net, My SQL, HTML, CSS, SCSS, Bootstrap, Tailwind CSS, PrimeNG, Abp Template, Azure Functions, Azure Service Bus, Sync fusion, Azure Cognitive Services, Azure Devops.
